

VEX-43DL

Product Description

The VEX-43 DL is a fixed LED downlight. It is manufactured from CNC machined aluminium to optimize heat sinking capabilities for unrivalled down light applications.

The luminaire is finished in anodised silver , black or finishes to suit the application.

Optic options available

Low profile design

Spring clip fixings

Max 4 units per driver wired in series

Technical

LED Drive Current (mA)	350 - 500	Maximum System Watts	5
Remote Driver Type	Constant current	Remote Driver Input Voltage	110 - 240 VAC
Connections	Hard wired	Operating Temperature	-10 to + 35
CRI	85 +	LED Type	CREE: XPE, XPE2, XPG2
Number of LEDs	1-3	Exepcted Lifetime (Hrs)	50,000
Beam Angle (Degrees)	12, 20, 30, 48	Lumen Output	TBC
Dimensions (MM)	See Drawing	Weight (KG)	TBC
Ingress Protection (IP)	20	Finishes Available	Anodised colours
